

## 2005 A New Era

A period of deep reflection and meditation left Pato (Banton) feeling *guided* to continue his musical journey. In early 2005 Yahe Boda (a consecrated spiritual teacher and forerunner) invited Pato to a short tour across America to "*Gather the People in Praise.*" This led to Pato phasing out his commitments and with renewed energy to take on the challenge of recording the *inspired* double album entitled "*The Words of Christ.*" (a narrated album of Christ's teachings taken from the Urantia Book)
